A typical page from the Address Telephone Directory

= the Address Telephone Directory

The Address Telephone Directory is now available for general business use.

Here, at a reasonable cost, is a directory that has practically unlimited use for almost any kind of business.

Since this directory contains the names of both business and residence subscribers, listed by street and number, it can be used in campaigns to the retailer or manufacturer as well as the consumer. Business telephone subscribers are definitely distinguished from residence subscribers, and the nature of their business clearly indicated.

Some of its Many Uses

Preparing Mailing Lists
In Telephone Selling Campaigns
In House-to-House Canvassing Campaigns
Selling in Office Buildings
Credit Use; in telephoning for neighborhood references
In the Shipping Room and Delivery Department
When the Address only is known; to obtain name and telephone number

Complete information on what it costs, its many uses, together with the names of local companies who have found it effective will be gladly given you by our Representative.

Directory Department — Telephone Main Official and ask for Extension 84
